MEMORANDUM FOR: Lieutenant General Lincoln D. Faurer, U.S. Air Force
Director, National Security Agency/
Chief, Central Security Service

SUBJECT: Community Data Processing Support
for Capabilities Programming and Budgeting

1. I was pleased to receive your memorandum of 27 December agreeing to
help the IC Staff establish improved computer support for Community budget
activities. As you described, the system at IOC will include electrical
connections among program offices at NSA, the IC Staff, the CIA, the DIA, and
[   ] In addition, if the development proceeds as
we anticipate, to achieve FOC we will need NSA's assistance in establishing
electrical connections for at least some of the remaining seven NFIP
members. These additional communications would be required no sooner than
CY 1984, and all software required by these remaining program offices would be
developed by the IC Staff.

STAT

2. In all other respects your proposal agrees with our expectations.
Although I am hopeful that the currently projected IOC completion date will
prove conservative, I understand that a more detailed specification of
requirements is necessary before it can be reevaluated and possibly
advanced. In the interim, I am told that the necessary detailed discussions
are under way and proceeding well.

/S/ John N. McMahon
